

## **Bachelor of Computer Application (Industry Integrated) [BCA-II]**

### **Course Profile**

Bachelor of computer Application (Industry Integrated) is not just a under-graduate degree; rather it is an extension of the traditional BCA program in the sense that it involves highly interactive teaching sessions and diversified work experience. In each classroom session of BCA (Industry Integrated) program, an in-depth preparation goes into imparting the modern concepts of computers with emphasis on class participation and case studies, which are strategically important in learning the fast changing business scenario. This program is conceptualized to provide hands-on experience in the real time business. BCA (Industry Integrated) program is more application oriented and gives practical exposure to the students along with the classroom theoretical knowledge of IT & Industry.

The program methodology differs significantly from the traditional method. This program blends Industry Exposure with Academic Knowledge. In this program, the student has to undergo On-the-Job Training from the 3<sup>rd</sup> semester to the 6<sup>th</sup> Semester. The Academic component will be provided through classroom learning at the University approved Extended Learning Centers located in different parts of the country. By the end of the program, the students get a regular degree as well as the industry exposure and experience. Hence, the students successfully completing this program have a greater edge over the students doing traditional programs.

### **Eligibility:**

Successful 10+2 students or equivalent with minimum 40% marks in aggregate from Board of Education recognized by the University, are eligible for enrollment to this course.

### **On-the-Job Training:**

The student would undergo On-the-Job Training in an organization for 4 days per week starting from the 3<sup>rd</sup> semester to 6<sup>th</sup> semester. On-the-Job Training would be arranged and monitored by NIAM. However, students can also arrange for the training themselves and NIAM shall monitor the same.

### **Duration:**

The duration of this program is 3 academic years spread over 6 semesters. On successful completion of all the semesters, the students will be awarded with the BCA (Industry Integrated) degree by Maharshi Dayanand University, Rohtak.
